Principles of work

We care about **professionalism** of executives, that's why we work with profiling specialists.

We care about **sustainability**, what's why we are a source of verified and reliable information.

We care about **transparency**, that's why we plan to publish quarterly analytical report. We expect the same transparency from our clients.

We care about **time**, that's why we follow the principles of deep functionality and scheduling in every project.

We care about **confidentiality**, that's why all the incoming from the project parts information have never been discussed, copied, used unconditionally and passed to any third parts.
